

Engineer eligibility checklist

SIM-AUTH-R1 | Revision 1 | RESOURCE

Operator SIM-AIR | ALL | ALL | Station ALL

Status ACTIVE | Trust TRUSTED | Effective 2026-09-01 to 2027-09-01

1. Scope

SIMULATION ONLY. Original fictional planning document. Not an OEM manual, approved MEL, maintenance instruction, flight-safety assessment or release authorization. A broad aircraft qualification is insufficient on its own.

2. Matching

Match operator, aircraft type, configuration, task scope, station, current authorization, shift coverage and actual availability. Expired authorizations and expired tool calibration are deliberate negative fixtures.

3. Shift

Check the entire planned work window, not only its start. Shift and availability records older than the configured freshness threshold are not trusted automatically.
