1. Scope

SIMULATION ONLY. Original fictional planning document. Not an OEM manual, approved MEL, maintenance instruction, flight-safety assessment or release authorization. This is a review checklist, not a MEL item. No dispatch permission can be derived from this fixture.

2. Required review

An authorized reviewer must identify the applicable operator MEL entry, verify aircraft and configuration applicability, review existing deferred items, assess any conditions and confirm the required maintenance and operational procedures.

3. Output

Display POST-LANDING REVIEW ONLY and dispatch_eligibility UNKNOWN. No automatic dispatch decision, rectification category, interval or operating limitation is supplied in this fixture.

4. Evidence gaps

Report missing or obsolete operator material as a blocking gap. A relevant-looking historical reference cannot replace a current applicable operator-approved document.
