

Materials acceptance and hold rules

SIM-STORES-R1 | Revision 1 | STORES

Operator SIM-AIR | ALL | ALL | Station ALL

Status ACTIVE | Trust TRUSTED | Effective 2026-09-01 to 2027-09-01

1. Scope

SIMULATION ONLY. Original fictional planning document. Not an OEM manual, approved MEL, maintenance instruction, flight-safety assessment or release authorization. Physical count is not serviceable availability.

2. Eligibility

Count a lot only when the part and configuration are applicable, operator access is permitted, condition is SERVICEABLE, release documents are VERIFIED, expiry is in the future and pool use is approved.

3. Freshness

Demo rule: inventory snapshots older than 30 minutes at the scenario clock require re-verification. This threshold is an application test assumption, not an industry standard.

4. Hold

Re-read the lot inside a transaction before making a hold. Hold one unit, record version and case, and release the hold when unused. A hold is not a purchase or shipment order.
